ABOUT ME

I'm a results-driven Full Stack Developer skilled in React and Node.js. My expertise lies in crafting seamless user experiences through responsive interfaces with React, and efficient server-side logic and APIs using Node.js. I'm eager to contribute my technical proficiency and passion for problem-solving to innovative projects. Let's connect and explore how my skills can add value to your team.

PROJECTS

MERN-Ecommerce App | |

- Utilized MERN stack (MongoDB, Express.js, React, Node.js) for a robust and modern web development framework.
- Implemented a responsive user interface with React, a scalable backend with Express.js, and utilized MongoDB for flexible data management. Included features such as secure user authentication, dynamic shopping cart, and efficient search and navigation.
- Prioritized a seamless and secure user journey by integrating a responsive interface, efficient shopping features, and robust security measures.

NEXT Note-App | |

- Developed a note-taking app using Next.js (frontend) and MongoDB (backend).
- Implemented CRUD operations for creating, editing, and deleting notes.
- Launched the app online with a user-friendly interface and secured user authentication for personalized access.

NEXT Weather-App | |

- Efficient Data Fetching: Utilizes Next.js's SSR for fast, up-to-date weather info and improved SEO.
- Modern UI: Uses Material-UI for a clean, user-friendly interface with intuitive navigation.
- Responsive Design: Ensures seamless performance across all devices with real-time updates..

MyPortfolio | |

- Created a personal portfolio website using React for the UI and Framer Motion for smooth animations, featuring interactive project showcases and a responsive design.
- Optimized for performance and accessibility, with future enhancements planned, including a blog and dark mode.

EDUCATION

B.Com(Hon) | Calcutta University

2016 - 2019

Kolkata, India
